[1]Irfandi. "Efektifitas penerapan protokol kesehatan pada covid-19 di lingkungan kerja PT. Lottemart Panakukang Kota Makassar ([2]Risma Haris., [3]Masriadi)

Perkembangan covid-19 di Indonesia, sampai saat ini masih meningkat jumlahnya. Akibat peningkatan kasus covid-19 pemerintah melaksanakan berbagai kebijakan berupa PSBB, lock down, pembatasan dalam skala terbatas, social distancing, new normal, mentaati protokol kesehatan dan kebijakan lainnya. Meskipun demikian ada beberapa kegiatan di luar rumah yang masih berjalan, salah satunya adalah kegiatan jual-beli bahan pokok kebutuhan rumah tangga Para pelaku usaha retail dan karyawan berisiko tertular dan menularkan Covid-19 sehingga perlu adanya kepatuhan protokol kesehatan guna menekan penyebaran Covid-19. Penelitian ini bertujuan untuk untuk menganalisis factor yang memengaruhi efektifitas penerapan protokol kesehatan pada covid-19 di lingkungan kerja PT Lotte Mart Panakukang kota Makassar. Metode Penelitian ini yakni observasional analitik dengan rancangan Cross-Sectional study. Penelitian ini dilakukan pada bulan Juni sampai Agustus 2021. Populasi yang dimaksud dalam penelitian ini adalah semua karyawan yang berada di lingkungan kerja PT Lotte Mart Panakukang kota Makassar sebanyak 120 karyawan. Sampel yang dimaksud dalam penelitian ini adalah sebagian karyawan yang berada di lingkungan kerja PT Lotte Mart Panakukang kota Makassar. Hasil penelitian menunjukkan dari 54 responden terdapat 77,8% menerapkan protokol kesehatan dan 22,2% tidak menerapkan protokol kesehatan. Berdasarkan hasil analisis yang dilakukan maka dapat disimpulkan bahwa sikap (p=0,002), beban kerja (p=0,002) , ketersedian fasilitas (p=0,009), dan kebijakan protokol kesehatan (p=0,001) berpengaruh dengan penerapan protokol kesehatan pada covid-19 di lingkungan kerja PT Lotte Mart. Penularan Covid-19 ini sangat cepat sehingga perlu diadakan edukasi kepada karyawan terkait penyebab penularan Covid-19 diantaranya melakukan protokol kesehatan dengan menerapkan 6 M.

Kata Kunci : Efektifitas, Sikap, Beban Kerja, Ketersedian Fasilitas Dan Kebijakan Protokol Kesehatan

ABSTRACT

[1]Irfandi. "The effectiveness of the implementation of health protocols on COVID-19 in the work environment of PT. Lottemart Panakukang Makassar City ([2]Risma Haris., [3]Masriadi)

The development of covid-19 in Indonesia, until now is still increasing in number. Due to the increase in covid-19 cases, the government implements various policies in the form of PSBB, lock down, restrictions on a limited scale, social distancing, new normal, obeying health protocols and other policies. However, there are several activities outside the home that are still running, one of which is the activity of buying and selling basic household needs Retail businesses and employees are at risk of contracting and transmitting Covid-19 so there needs to be compliance with health protocols to suppress the spread of Covid-19.This study aims to analyze factors that affect the effectiveness of the implementation of health protocols in covid-19 in the working environment of PT Lotte Mart Panakukang makassar city This research method is observational analytics with cross-sectional study design. The study was conducted from June to August 2021.The population referred to in this study is all employees who are in the working environment of PT Lotte Mart Panakukang makassar city as many as 120 employees. The sample referred to in this study is some employees who are in the working environment of PT Lotte Mart Panakukang makassar city.The results showed that of 54 respondents, 77.8% implemented health protocols and 22.2% did not implement health protocols. Based on the results of the analysis conducted, it can be concluded that attitude (p=0.002), workload (p=0.002), facility availability (p=0.009), and health protocol policy (p=0.001) have an effect on the implementation of health protocols on covid-19 in PT Lotte Mart's work environment. The transmission of Covid-19 is very fast so it is necessary to hold education to employees related to the causes of Covid-19 transmission including conducting health protocols by implementing 6 M.

Keywords: Effectiveness, Attitude, Workload, Availability of Facilities and Health Protocol Policy
